

CUSTOM PANEL SHOP

INDUSTRIAL CONTROL PANELS BUILT TO YOUR SPECIFICATIONS

SEI has been designing and fabricating Industrial Control Panels and Automation Systems for a variety of industries in both Europe and the United States for over 10 years. As a listed UL 508A Panel Shop, all panels we build are compliant with the UL 508A directives and carry the UL Label. With engineering and panel building resources available in both Austria and the US, you are assured of the best quality and pricing available. SEI is also able to provide CE Certified panels when installation in the European Union (EU) is required.

SEI is experienced in designing and building low-voltage industrial control panels ranging from small motor starter panels to complex integrated systems with HMI Touch Screen management interfaces. In addition to designing and building panels, SEI is also recognized as a leader in automation system integration and can provide PLC Programming and Controls integration utilizing expertise in Siemens Simatic Manager, WinCC, OPC, PC and Database application development.

CUSTOM PANEL SHOP

INDUSTRIAL CONTROL PANELS BUILT TO YOUR SPECIFICATIONS

Control Panel Expertise

- Build to Customer Design
- Design & Build to Customer Specification
- Design Review and Optimization
- Custom Enclosure Assembly and Wiring
- Field Installation and Commissioning
- Complete Drawings and Documentation

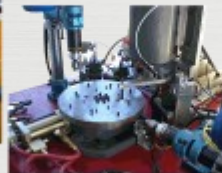

Services

- PLC Programming - Siemens Simatic Manager
- HMI Programming - Siemens WinCC
- System Integration - OPC
- PC and Database Programming
- UL 508A Certification
- CE Marking

Industries Served

- Pharmaceutical
- Material Handling
- Manufacturing
- Automotive
- Energy
- Waste Water
